

24 HOUR SPILL RESPONSE

DRIZIT Environmental offers a 24 hour Hazmat Spill Response service that operates throughout South Africa and into Central and Northern Africa. DRIZIT Environmental Operations Division has developed over the past 35 years into a highly effective and efficient emergency response service provider. DRIZIT Environmental attributes its success in the industry to the following:

- Highly trained and experienced response Technicians and crews.
- Effective and functional equipment and facilities.
- Experience in mitigation of Hazmat incidents involving a variety of hazardous chemical substances in varying environments and situations.
- DRIZIT clean-up teams have vast experience in all sectors of the transport industry including aviation, marine, road and rail transport.
- DRIZIT Environmental's comprehensive absorbent range caters for all chemicals and products.
- 24 hour response teams on standby.
