

OIL & CHEMICAL TRANSFERS

DRIZIT Environmental crews are equipped to efficiently and safely effect Fuel and Chemical product transfers from a variety of tanks or containers using state of the art equipment and safe methods. Product transfers from the following facilities can be done:

- Bulk storage tanks.
- Shipping containers and intermodal tanks.
- Intermediate Bulk Containers (IBC's).
- Drums and small packages.
- Road and rail tankers.
- Pipelines and below ground storage tanks.
